

Enterprise ColdFusion with Model-Glue

Thank you for attending Enterprise ColdFusion with Model-Glue! I appreciate the opportunity to help you learn some of the latest and greatest techniques for building robust and maintainable applications using enterprise development frameworks and techniques.

You will directly impact the pace and direction of this training class. We have a lot of material to cover and only four days. However, we have a lot of time built in for questions and examples.

Please interrupt! If something you're hearing doesn't make sense or sparks a question please speak up!

Every day starts at 9:00am and ends at 5:00pm with an hour lunch at noon. Breaks will be interspersed between topics, but not on a schedule.

Day 1

- Introductions
- CFC Crash Course
- Things You Need to Know to Get Started
- Getting Started With Model-Glue

Day 2

- The Model-Glue Framework
- Model-Glue In-Depth

Day 3

- cfcUnit Crash Course
- Data Access Design Patterns
- Wiring It All Together with ColdSpring

Day 4

- Introduction to Reactor
- Advanced Model-Glue
